

# ART

at EvergreenHealth

A Self-Guided Art Tour

A celebration of our community through art

# Welcome

## to Art at EvergreenHealth

The following pages outline many of the major artworks in our permanent and loaned collection, located in public areas of the hospital.

You may use it to visit art in a single building or all of the art throughout our hospital – in lobbies, hallways and waiting rooms.

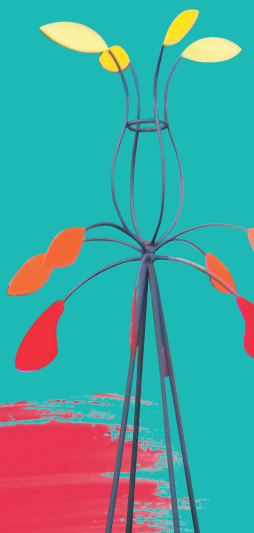

Research indicates that experiencing art can have a powerful positive impact upon mood, mental state, recovery time and pain perception. EvergreenHealth is committed to providing exceptional care by offering peaceful, beautiful, healing environments as well as the latest in break-through medical technology.

We are committed to displaying the works of community artists and artists managed by local galleries.

Our collection includes works in oil, watercolor, acrylic, pastel, monotype, collage, glass, clay, copper, bronze and steel. The collection continues to grow through donations, gifts, fundraising, loaned art and also through the generous support of the EvergreenHealth Foundation.

Throughout the tour, be sure to also notice works located outdoors on our landscaped grounds.

Celebrating our community through art.  
Celebrating your good health through art.

# Welcome to EvergreenHealth

Our organizational purpose is to enrich the health and well-being of every life we touch – in our hospital, practices, patient homes and hospice. Permanent displays and rotating art galleries in our facilities help support a welcoming, healing environment.

They are made possible through donations, loaned exhibits and the support of professional artists. We invite you to pause and enjoy!

## Watercolor Scenes

Katherine L. Wright

Donated by The City of Kirkland

Artist and architect Katherine Wright divides her time between Kirkland and Italy. She created this series of watercolor scenes of historic and beloved Kirkland landmarks as a gift to the City of Kirkland.

The City of Kirkland then donated a set to EvergreenHealth to commemorate the grand opening of the Silver building and Emergency Department. Proudly installed between the two zones, they remind us daily of the beautiful city where our hospital main campus is located.

“We greatly value the art, both the permanent pieces and the rotating shows in the Radiation Oncology Center at EvergreenHealth Halvorson Cancer Center. Patients and family members continually study and enjoy the pieces. The collection helps support the medical care in contributing to an environment that is warm, positive, approachable and of high quality.”

Eric Taylor, MD  
Radiation Oncology

## Original Photography

Dr. Geoffrey Ferguson

*Digital Screen* | Photography donated by the artist

---

Physician, adventurer and photographer Geoffrey Ferguson has donated his beautiful photographs to our Breast Center, our Emergency Department Lobby and our Cancer Center.

Dr. Ferguson's travels take him all over the Northwest and all over the world. Whether kayaking or hiking, he finds the moment that most translates quiet and shimmering light and beauty ... and then we at Evergreen are able to enjoy his work in print and through the miracle of technology. We want to take this opportunity to thank "Dr. Ferg" for his generosity of spirit.

Island Moorage, Solitude,  
Davis Bay Moorage

Dr. Kathy Collins  
*Original watercolor*

---

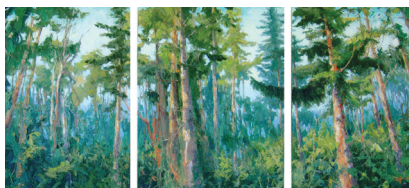

Kathy Collins, M.D. organizes her life around mornings painting in her studio and afternoons seeing patients in her office. This series of three watercolors honors life in the San Juan Islands. Her other works are often representations of her travels biking in the countrysides and towns of Ireland and Italy ... and many other picturesque locations. We are honored to have her work represented in our permanent collection. Kathy is also the artist who painted “Bothell” in our series of eight hospital cities.

## The Four Elements

Cassandra Blackmore  
*Original glass installation*

---

Glass Artist Cassandra Blackmore designed this piece to honor the grand opening of our Halvorson Reflection Room as a haven for all faiths and all cultures.

Chaplain Dave Wendleton asked for a representation in glass of the Middle Ages Philosophy that our earth is made up of four elements, and Cassandra took that analogy, reverse-painted the glass and then crackled it to symbolize the broken pieces in all of us. We who use the Halvorson Reflection Room understand the allegory and the beauty on both the artistic level and the philosophical level. Cassandra has gone on to become quite a well-known artist nationally and internationally, and we are proud to have her as one of our “Evergreen Artists.”

## “Everyone’s Journey is Different”

Barbara Zander

*Hand-dyed silk, ink and metal installation*

Artist Barbara Zander created this installation in honor of our Halvorson Cancer Center opening. She hand-dyed the silk, and then used the silk to cover metal panels which were then attached to a metal sculptured backing.

Silk panels in colors of EvergreenHealth’s branding colors were first woven into the piece. Evergreen’s colors were inscribed with messages of hope from our patients and our community as they stood and wrote and then wove their messages into Barbara’s beautiful work. A plaque honoring the people who participated is installed beside the woven interactive piece.

“Making art is like giving a gift:

Evidence of your spirit and that you are here.”

Patti Mitchell

### Kirkland Art Center

R.G. Long  
*Oil on canvas*

---

This large oil depiction of Peter Kirk's early home, now the Kirkland Arts Center, is a popular downtown Kirkland landmark. Peter Kirk, the founder of Kirkland, was a wealthy factory owner from England who settled here with his family in the late 1800's. He was involved with early shipping on Lake Washington, as well as many manufacturing pursuits. The town of Kirkland is named for him, and his influence lives on in many ways. This artwork imagines how the street looked in times gone by.

Edward Curtis Gallery of Historical Photography

Edward Curtis  
*Lithographs*

Donated by Maury & Sharon Flothe, Publishers

---

Edward Curtis is one of the most revered early photographers from 1900's America. He left a successful life as a society photographer to live outdoors while photographing the native peoples of the West and Southwest. Publisher Maury Flothe and his wife Sharon donated eight pieces of Edward Curtis' photography to Evergreen to honor the work of the Emergency Department here. During the time that Maury's loaned photographs were hanging in our Silver rotating gallery, he unexpectedly became an emergency patient. "You saved my life, and I want you to have as many photographs as you can handle." Our Emergency Department staff should feel very proud of their legacy as they view the integrity and stamina in the faces of these early portraits.

“When you are an artist,  
you are a healer.”

Rachel Naomi Ramen, MD

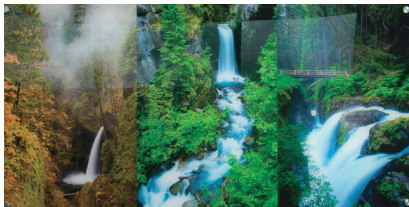

### Kirkland Street Festival

Ross Nicoll

*Oil on canvas*

Donated by Patty Tucker in memory of K. David Tucker

Artist Ross Nicoll painted this large and colorful oil in 1999 for a downtown Kirkland street festival on Parklane. It lived for many years in a private home and was donated to Evergreen in 2013. This piece is popular for the “art within the art” feature and also for the festive colors and happy faces of the festival-goers who are enjoying a sunny day in downtown Kirkland.

### Jellyfish

Justin Bagley

*Original glass installation*

---

Glass artist Justin Bagley created this fanciful installation for the opening of our EvergreenHealth Foundation offices. As the glass jellyfish move up the wall, they seem to symbolize survival and effortless flow. The son of one of our Evergreen employees, Justin is a rising star in the field of Northwest glass and we are pleased to host his work in our permanent collection.

## Gallery of Kirkland Historical Scenes

Kevin Koch  
*Oil on linen*

This series of oil paintings of early Eastside schools, bathhouses and train stations by artist Kevin Koch remains a favorite and has become something of an Evergreen institution. We have many visitors who have come over to the Tan building to visit these favorites for the umpteenth time. They are located across from our large meeting space near stairs and elevators for ease of viewing, and they remind us of the simplicity and the beauty of the early days in our neighborhood.

### Eight Cities Watercolors

Various Artists  
*Original watercolor*

Eight different and very talented local watercolor artists were commissioned to paint “Evergreen’s Eight Cities” and represent the entire community at the grand opening of the Silver Building and into the future. Each artist chose a favorite city, and each city is beautifully represented in a multitude of watercolors. A process that should have been difficult was in fact so easy.

These paintings have been so popular and so frequently requested that note cards and postcards of them have been created and are now available.

We would like to take this opportunity to thank our generous donors for their unsolicited and warmly appreciated gifts to our permanent art collection:

The City of Kirkland, Marybeth Alwood, Warren Appleton, MD, Patty and Allen Auvil, The Family of Kay Barnes, Ben Franklin Framing, BigInk Seattle, Friends of Beth Shira Carver, Dale and Leslie Jackson Chihuly, Lesli Cohan, Kathy Collins, MD, Chuck Davis, J. Donald and Merrily Dicks, Sarah Eames, EvergreenHealth Foundation, Geoffrey Ferguson, MD, Sharon and Maury Flothe, Angela Fu, GE Capital, Fawn and Dave Harmon, J. Patrick Heffron, MD and Staff, Howard Mandville Gallery, The Estate of Becky Hudson, Laura Justice, Diane Langdon, Fred Lisaius, Mary McCann, The Daughters of Karen Winberg Morisset, The Family of Dugan Lange, Susan V. Powers, Pat and Johnny Richardson, Miranda Roberts, Judith Rosso, Donna Schill, Steve Self, Joanne Shellan, Eric Taylor, MD, Suzanne Tidwell, Joyce Tennis, Patty Tucker and Family, Hilary Valentine and Univar Corporation.

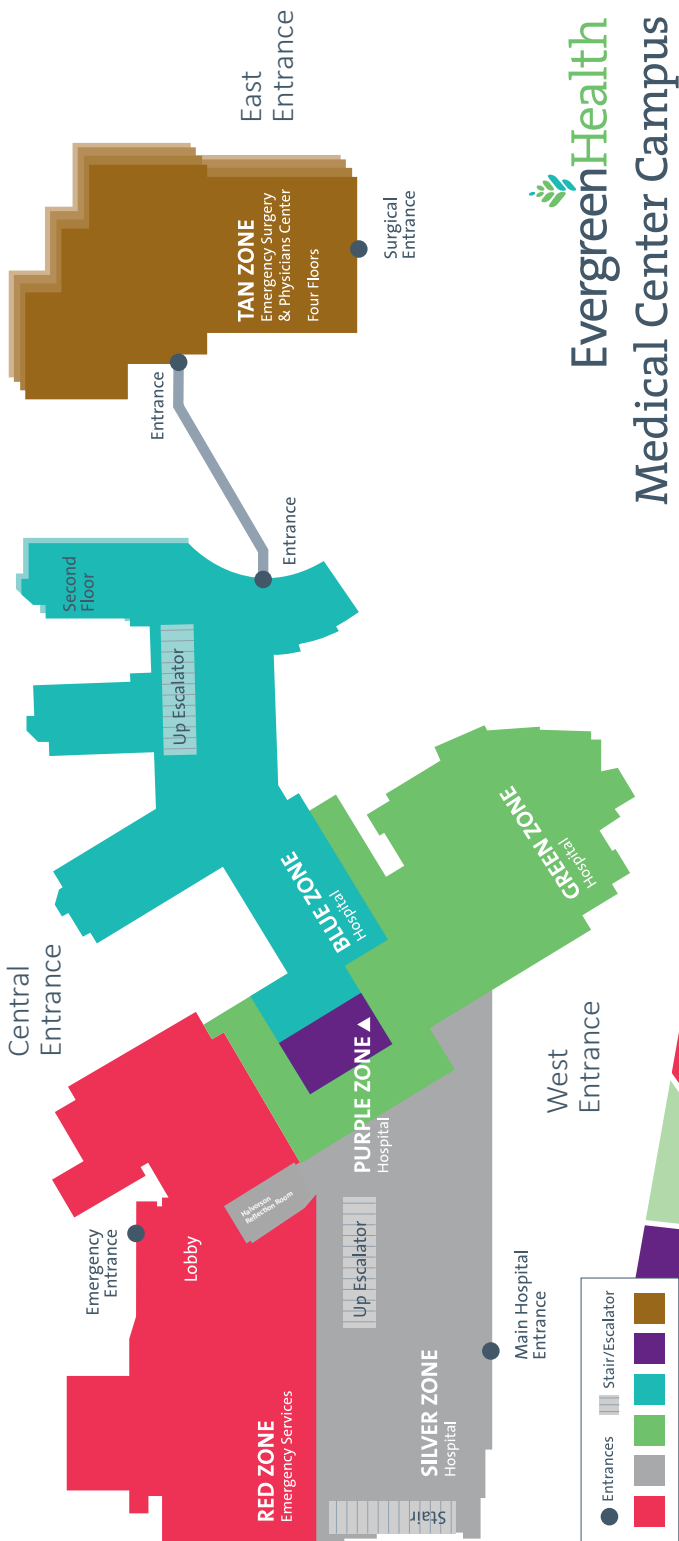

### Pink Fantasia

Suzanne Tidwell  
*Original fabric collage*  
Donated by the artist

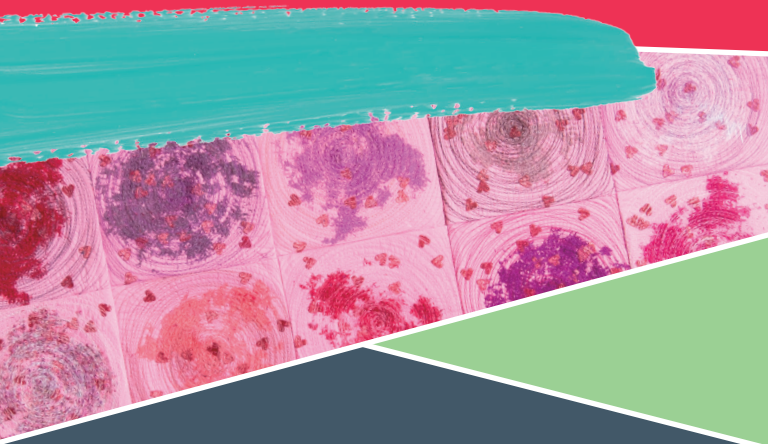

---

Well-known fiber artist Suzanne Tidwell donated this collage of cloth, wool, cotton and fabric, in colors of pink, to honor the patients and survivors of breast cancer. She is known as the “tree artist” for her installations featuring woven wraps on tree trunks at local festivals and celebrations. We have very few examples of fabric art in our collection, and we thank Suzanne for her generous framed donation that allows us to vary the mediums in our collection, while honoring the work being done in the field of breast cancer.
